TELEGRAMS

(By Havas Agency)

Berlin, 21—The ordinary session of the Prussian parliament came to a close yesterday. In his address the Emperor William expressed his conviction that peace would be maintained in Europe.

Carlsbad, 22—Prince Ferdinand of Bulgaria arrived here to-day; it is said, with a political object.

Montevideo, 22—Government has decided to institute an Engineers' Corps.

There were not many people at the races yesterday. The winners were: Tunante, Maquiavelo, India Muerta, Donna, Nil Desperandum and Vipiel.

The weather is dry and cold.

The bodies of the sailors of the Bramble, drowned owing to the capsizing of a boat, have been recovered.

TAXES ON CATTLE.

Advices from the rural districts report general discontent on account of the proposed new tax on sheep, cattle and horses now before the Provincial Legislature of Buenos Ayres. This is another blow at the best industry of the Republic, for it must be remembered that the farmers are staggering under the weight of the new export dues imposed last Christmas. We have before us an official statement of the products on which export dues were levied in the quarter ending March 31st, 1891, viz.:

	$
Exports taxed.....	26,040,000
Dues collected	480,000

As it is expected that the exports this year subject to duty will reach from 70 to 80 millions, we may estimate the duties on same at $1,500,000, and this enormous sum will be taken out of the legitimate earnings of the estancieros of Buenos Ayres, Santa Fé and Entre Rios. Export duties, it is well to bear in mind, do not come out of the gross proceeds of wool, hides, &c., but out of the farmers' net profits. If there were no such duties the farmers' balance would be $1,500,000 more.

Nevertheless, in view of this unwise and weighty burthen, which Congress has imposed on pastoral industry, the Provincial Legislature of Buenos Ayres thinks the sheepfarmers are not taxed enough, and now proposes a capitation tax of so many cents on every cow, sheep and horse in the province. Those useful animals, that have built up the wealth of Buenos Ayres, are now to groan under a poll-tax, winter and summer, besides suffering from droughts, floods and other hardships.. If they could present a petition to the Chambers they would accuse the Hon. Senators and Deputies of the blackest ingratitude.

Mr. Riestra once said that he feared the Legislative bodies would drive the people mad with taxes. There is certainly a limit beyond which it is dangerous to venture, and perhaps we have reached, or may shortly reach, that limit; at least Dr. Plaza assured Lord Rothschild last Christmas "that the Government could not safely think of proposing fresh taxes." Since then, however, we have seen export dues, excise and some others, the creation of which has had a depressing effect, as everybody knows.

But the capitation tax on sheep and cattle will have a still more damaging result, in crippling the great industry of the River Plate. Many of the wealthy estancieros will be able to bear it, but each estanciero has thirty or fifty medianeros, puesteros, &c., who will be overwhelmed by it. The humble shepherd who rents a *puesto* of 100 cuadras of land is able at present to pay his way and make a decent living. His savings one year more than suffice to cover his loss in another year from drought or floods. The proposed tax, however, will sweep away any margin in good years, and when a bad year occur he is ruined and is left a pauper, after a lifetime of industry and self-denying economy.

The crisis will be prodigiously strengthened if this new tax be imposed, for it will attack the vital interests of the Republic. We are steadily going from bad to worse, and every new measure of our legislative bodies adds to the general confusion. So long as our pastoral industry was not touched there was room for recovery, sooner or later, but the tax which is proposed must tend to destroy the last sound element we possess.

The following Bill has been laid before the La Plata Legislature by Governor Costa:—

Art. 1.—From the first of September, 1891, the following taxes shall be levied on chattels:—

(1) One dollar per head of cattle taken out of the province; (2) 50 cents per head of horned cattle slaughtered for sale in the province; (3) 50 cents per calf under one year of age taken out of the province: (4) 20 cents per calf under one year of age slaughtered for sale in the province; (5) 20 cents per cow-hide; (6) 10 cents per calf-hide; (7) 30 cents per sheep taken out of the province; (8) 5 cents per lamb taken out of the province; (9) 10 cents per sheep slaughtered for sale in the province; (10) 30 cents per dozen sheep-skins: (11) 5 cents per dozen "epidemia" skins; (12) 5 cents per dozen lamb-skins; (13) 30 cents per "arroba"; (14) 10 cents per "arroba" of "borrega" wool; (15) one dollar per head of swine taken out of the province; (16) 50 cents per head of swine, not full grown, taken out of the province; (17) 50 cents per head of swine slaughtered for sale in the province; (18) 30 cents per head of swine, not full-grown, slaughtered for sale in the province; (19) one dollar per horse taken out of the province; (20) 50 cents per horse slaughtered for sale in the province; (21) 20 cents per horse-hide.

Art. 2.—When an animal is slaughtered, the hide, for the purposes of taxation, shall be considered apart.

FRESH OBLIGATIONS.

Every day brings to light some new phase or circumstance of the prevailing crisis. The report of the National Bank, which we published yesterday, shews that the bank owes two millions sterling in London, being money raised on the mortgage of Cedulas and Railway bonds, and as the mortgage expires this year the bank will be required to pay the amount. This being impossible, it will remain for the London creditors to consider whether a Moratoribus can be arranged.

We are not told whether the whole or a part of this sum of two millions is due to Baring Brothers. All we know is that the bank took the Cedulas at 76, which are now selling at 28, and the Railway bonds at 87, the value of which is not easily fixed. Some of the new railways are at a heavy discount, for example the North-West Argentine shares are 75per cent. below par, the Cordoba and North-Western 50 per cent. Thus it would appear that more than half this money advanced by the bank may be considered lost.

If the London creditors foreclose the mortgages they are likely, moreover, to sustain a heavy loss. The amounts lent and the apparent value of the stocks in question shew thus:—

	Cedulas	Railway stock
	£ sig.	£ sig.
Sum lent	740,000	1,500,000
App. value ..	450,000	1,200,000
Loss	299,000	300,000

Here is a loss of £600,000 sterling, but this is doubtless under the mark, since any attempt to sell such a quantity of Cedulas and Railway bonds would inevitably cause a still further fall in quotations. Meantime we can hardly see any use in a Moratoribus, as the Nat. Bank is unable to pay its depositors, and these have a preferential claim before other creditors

CHILIAN NEWS.

In spite of the heavy snow-storms in the Cordillera, the telegraph wires have not been injured. Several telegrams were received yesterday announcing some legislative activity on the question of reforming the Bench. The inundations in Valparaiso have not subsided, and terrible distress continues to prevail in many quarters of the city. Traffic in the streets has not been entirely resumed. Gangs of workmen are employed in repairing the damages done to the thoroughfares. In fact, these inundations are said to be one of the biggest calamities yet experienced in Valparaiso.

The *Boletin del Dia* of Valparaiso, commenting on the revolution, exclaims —"We must suppress this revolution at once. There are no obstacles for the Chilian soldier. To Iquique! To Iquique!"

In reference to Chilian affairs, we see by advices from Mendoza that the Stephen division are encamped on the right bank of the Rio Blanco, near Uspallata. They are unable to cross the Cordillera in consequence of the pass being snow-blocked. In the meantime the unfortunate men are suffering terribly from every manner of privation. The people of Mendoza sent them 400 blankets.

ROSARIO.

(From our own Correspondent.)

June 19th.

What is the reason that the Spanish races are so behind the times in the science of government? It is not that there is a failure here and there only, but strange to say, in no part of the Spanish dominions, or in any of the emancipated colonies do we find a government of, and for the people. The Spaniards and their descendants in the new world are physically and intellectually inferior to none of the European tribes, but the policeman of the age cannot get them to "move on."

In the sixteenth century Spain was in a position to dominate the civilized world, not by her moral but her physical strength The wealth of the new world pouring into her coffers, the Netherlands to the north, and Naples and Sicily to the south, acknowledging her sovereignty, the most potent army in Europe, and a country unparalled for its natural riches and its geographical position. And yet within a century from the day when the great Charles gave over his mighty kingdom to his sombre son, Philip II., that mighty kingdom was prostrated in the dust. Not from conquest, but purely through misgovernment, which resolved itself into the formula, existing to this day: the oppression of the many for the benefit of the few.

The reason of the sudden decadence of that fair country was, that there were no citizens, no commerce, no artizans, no schoolmasters, no liberty of action. The nation was composed of nobles, priests and soldiers. The only elements of progress in the time of Ferdinand and Isabella, in Spain, were the Moors and the Jews; but they were ruthlessly expelled. From the taking of Granada to the reign of Philip III., more than 3 millions of Moors, at that epoch the most civilized people in Europe, quitted Spain, and carried with them not only a great part of their acquired wealth, but that industry and labour which are the foundation of national prosperity. Thus it came about that the loss of a few battles was sufficient to cause a collapse, for Spain had no industrial classes to fall back on. While other nations were intent on turning their subjects into citizens, Spain insisted on the policy of turning her citizens into subjects.

To see how this singular policy has been handed down to the descendants of the Spanish race we have only to turn our eyes to the political state of Latin America, and, alas! that we cannot except Argentina. There is not one sole Spanish-speaking nation from the Iberian peninsula to the Phillipine Islands where we find citizens; they are only subjects. As for the Argentine Republic, with its phalanx of notable men and a territory susceptible of a development equal to that of the United States, where is the Argentine citizen? Ask the governors, the satraps of the provinces, the "jueces de paz," the "comisario de campaña," the military tyrants and all the brood of ignorant, selfish and unscrupulous functionaries who fatten on the degradation of the people. We come back to the question with which I commenced this letter: what is the reason that the Spanish races are so behind the times in the science of government? In a roundabout manner I come to the answer, the solution of the apparent mystery which I here repeat: it is because the Spanish nations, notwithstanding their undeniable progress in many things, have no citizens; they have only subjects.

LONDON LETTER.

LORD SALISBURY AT GLASGOW.

(From our own Correspondent.)

London, May 21.

With a humour we all recognize in Lord Salisbury, and a cynicism he cannot control, his lordship, in addressing a Glasgow audience, alluded to Edinburgh as "the capital of the other side of Scotland." He showed his respect for his audience by making a long and a good speech, if not a very important one. What importance it possessed was due to that very cynicism of his which makes him appear frank when he does not mean it, and when, indeed, as an astute politician and diplomatist his frankness is often as inconvenient to his own partisans as it is to the permanent officials in the Foreign Office. Yesterday the occasion of the speech was the presentation to Lord Salisbury of the freedom of the city of Glasgow, and it was understood that politics, or anything approaching to party politics, would be ignored. Foreign policy is acknowledged in this country to be neutral ground. For many years past it has been the rule or etiquette of British administrations to continue the foreign policy of their predecessors, whilst these when in opposition raise no questions, excepting under unlooked-for circumstances. It is thus that an obvious defect in our republican institutions is neutralised by the good sense of our legislators. Lord Salisbury, in replying to the honour done him by the citizens of Glasgow, devoted most of his address to a review of the Government foreign policy, and even to an amusing and instructive portraiture of Mahomedan and British African States in the persons of their rulers, such as the Sultan of Turkey, the Emporre of Morocco, the Khedive, Mr. Cecil Rhodes and Sir William Mackinnon—"your countryman," as the unctuous marquis called him in addressing the Glasgow people. He could not resist telling [illegible]. Rhodes and the South African fol[illegible]at there were other places in the wo[illegible] besides their colony, and that Portugal, however slow she may be in making "treks," had certain claims in those regions a European minister of foreign affairs could not set aside to please Mr. Rhodes. On the other hand his cynical frankness induced him to say of Portugal that if she would only be content to rule natives in the sweltering coast lands where Europeans could not exist, and leave the healthier high lands to the English and to such of the Dutch as they might condescend to patronise, all the little differences between ourselves and the Portuguese could be arranged. So convinced was the logical mind of Lord Salisbury of the reasonableness of this offer that he went as far as saying that the Portuguese themselves saw it and were contented. With the same satisfaction in his own rationality, and carefully humouring Scotch prejudices, he praised Mr. Gladstone, from whom he admitted many blessings had flowed, he praised the opposition for its forbearance in matters of foreign policy, and finally praised HomeRule, but not without certain reservations. He admitted that the Imperial legislature was overburned and he had at last become convinced that "business measures" and other work now done in Westminster could be better done by provincial and municipal councils; and particularly by intelligent bodies such as could be found in Glasgow and in "the capital of the other side of Scotland." But when the noble Marquis reached as he inevitably must, the question of Home Rule in Ireland, he rated the opposition in the House of Commons for preventing the good government he and his colleagues were anxious to promote in that country where, owing to racial and religious difficulties deep-set and ancient, and where even through class estrangements, it was not advisable to put in practice those home rule doctrines with which "hypothetically" he confessed himself enamoured. That is to say, his lordship was in favour of home rule on all business matters, but not where political questions get intermingled with them; for as he said, Mr. Sexton as Lord Mayor of Dublin, would make 300 speeches on political questions, but few or none on any business question. Ultimately Lord Salisbury in his peroration disclosed not the hoof of a dishonest politician, but the little white feather in the tail of the present day upper crust individualist. "Again," said his "family-physicianship," "there are questions it is difficult to solve in a mechanical manner by putting a formula on the statute book, which it would be possible to solve by citizens legislating for citizens whom they personally know"—that is landlord legislating for Hodge—"personal interest, personal proximity, personal investigation into the conditions of those social problems by those who have influence and power in the locality where they arise, might often furnish a way out of a perplexity, and avoid raising all the passions by which the fabric of our society is threatened."

Yes, our society. Whilst Lord Salisbury chatters the chatter of a well to do common-place, Englishman the fabric of our society is being threatened at this moment in Belgium and Switzerland; and not by "passions" but calm legislative, deliberate "business measures" transferring here the power through an extended franchise, there the water wanted as an agent in the industrial application of electricity, and finally the soil into the hands of the commonwealth. "To avoid raising these passions"—is it not ludicrous such old-world phraseology?—Mr. W. H. Smith and his friends are manipulating a Land Purchase Scheme in Ireland to gradually form a loyal peasant proprietary, and the Marquis of Salisbury almost persuades himself with the same dishonest interest that he is a Home Ruler if not a Socialist, so that he can better guide the flood as it rises into channels favourable to the interests of his class.

It is needless to add that Socialists as well as Gladstonians receive Lord Salisbury's Glasgow speech with shouts of laughter and even glee; whilst the wretched *Times* and the *Standard* and the whole litter of the politically halt and blind and the morally unrighteous hang their heads with shame that their great leader should have proclaimed himself even conditionally a Home Ruler.

RACING AT PALERMO.

A big attendance, splendid weather and fair fields were the principal points in Sunday's racing. With the exception of the two races for two-year-olds, nearly all coloured on the card presented themselves, and in the Premio San Juan, wonderful to say, there was not a single absentee. Paysandu made common hacks of his field in the Premio Cordoba, and shewed a form yesterday that would be hard to beat. The representative of the Stud Nuevo was a strong fancy amongst the knowing ones, but they bargained for more than they imagined when they saw Paysandu, spite of his heavy weight, sailing home the easiest of winners. The productions of Star (a sire whose pedigree can only be equalled by one or two horses in this country) won both the two-year-old races. As a race-horse, Star never did anything here, and always was the whipper-in in any race he started for. Verily, blood must tell, and the Hermit strain made its mark on Sunday in a very pronounced manner. The 3 top weights in the sprint race all scored, spite of a heavy track, Finance, in particular, proving that a dead course could not stop him. The rider of Diane de Lys had a wonderful escape in the last race. Had he been in front in place of the last he would have hardly got off with his life. On enqiring yesterday we were informed that he had escaped with a slight contusion. The starting was very fair indeed, and the hour marked on the card punctually attended to. The following are the details:—

YELLOW FEVER IN BRAZIL.

São Paolo, 12th June.

Dear STANDARD,

I am surprised to see it stated in a recent number of the STANDARD that the yellow fever is disappearing from Rio de Janeiro, and that the total deaths from that cause during the month of May were but 33! Considering that the daily total during that month averaged, according to official figures, considerably over 20, it is clear to me that your information is grossly incorrect, or else your compositor made a mistake in the figures. According to the popular impression in Rio, the official register only contains about one-third of the actual deaths, and this is supported very strenuously by *O Paiz* and *Rio News*, the latter of which two journals recently averred that patients in the fever hospital were put in their coffins while yet protesting they were not dead. As I have previously read with pleasure and hearty approval your repeated warnings against emigration to this country, I hope you may see fit to find room for this communication, in the hope that it may save any person likely to be misled by your previous mistake from falling into those veritable death traps—Brazilian ports.

I could write much more which might be of interest to English-speaking people in Buenos Ayres, but think that the extracts from the two papers sent herewith will enable you to see just how bad the fever is at this already advanced season, and in Santos as well as Rio.

Yours truly,
J. Bartlett.

A MODEL RAILWAY MANAGER.

Floresta, June 16th.

Mr. Editor,

The Committee met yesterday, and were unanimous in expressing their regret at Mr. Roberts' deplorable reply.

The proverb "palabra de ingles" embodies one of the proudest distinctions that one could possibly confer on another; the words are used as a synonym for straightforward, unsullied truthfulness. Pity it were that the most fine gold should become dim! Pity it is that an English gentleman should lay himself so open to criticism, and we assure you, Mr. Editor, that it is "more in sorrow than in anger" that we point out some of the discrepancies in Mr. Roberts' answer, which we will indicate, in order that the public may gauge its moral value.

1st. Mr. Robert says he made no promise to open up streets, and 2nd; with respect to the fines imposed, he recommends "greater accuracy." Now, the Committee never asked Mr. Robert to open up additional streets; they know he is not the Intendente; those spoken of had already been open for years; he was asked to make passages through his wire fences, in obedience to the law, so as not to interrupt free circulation along those streets. Does Mr. Roberts deny that he advised the Committee to confer with Mr. Riglos, the Municipal Engineer, to facilitate combined action between himself and that gentleman? Did not the Committee report to Mr. Roberts that Mr. Riglos assured them of his readiness to cooperate cheerfully with him? Later on, did not Mr. Roberts say that Mr. Brian, his Director, was going to meet Mr. Riglos, in order to arrange the matter? If Mr. Roberts does not deny these facts; wherefor does he say that "he was not aware that he had made any promise, etc."?

With respect to the fines, we were promised the date and amount of each separate fine, and hoped to be "a little more accurate;" but, unfortunately, we are now told that the information supplied was necessarily confidential; however, the Committee reaffirm that they have it on the best authority that the amount of the fines applied exceeds 24,000 dollars; these fines have not been exacted.

If Mr. Roberts will kindly answer in the form of definite assertions or negations, this matter will be much simplified thereby.

The Committee.

VICTORIA CONVALESCENT HOME.

The annual general meeting was held at the London and River Plate Bank on the 20th of May; the chairman, Mr. J. Drysdale, in the opening of the proceedings said that a perusal of the report would leave the pleasing impression that the progress of the Home had been much greater during its second year than its first; there was no doubt but that its usefulness would be increasingly appreciated as the unanimous verdict of all who had received the benefit of a few weeks' rest, was one of gratitude for the kindness and of approbation of the treatment during their stay there.

It was with great regret that the committee had to report the resignation of Mr. and Mrs. Clarke, who had worked at the Home since its commencement, but they were glad to report that in Mr. and Mrs. Carson they had found a capable couple to succeed to the duties of superintendent and matron, and so far all was going on satisfactorily.

After remarks from various gentlemen present as to the possibility of being obliged to raise the charges, owing to the great depreciation of the currency, the following changes in the Rules were proposed and carried:

That Rule No. 19 should read after the word dining-room—"the charge for maintenance to be left to the discretion of the Committee."

Rule No. 20 to read:—"The rate for general patients shall also be left to the discretion of the committee."

Messrs. S. Carlisle, H. O. Huxtable and the Rev. J. Fleming resigned in accordance with Rule No. 15, the latter offering himself for re-election; and on the proposal of Mr. J. Mohr Bell the following were elected to fill the vacancies: Mr. F. C. Chevallier Boutell, Rev. A. B. Pinchard, Rev. J. Fleming; suplentes, Messrs. W. C. Huxtable and W. H. Hallet.

GREENBACKS.

Mr. Editor,

Your "Greenback Project" is decidedly the best that has appeared until now, and, if our excellent State Physician would take it seriously into consideration, he would render his country an immense service. The only thing in which I do not agree with you is the conversion at the rate of three shinplasters for one Greenback!! Government has yet 20,000 leagues of land to sell, which they tried to do in Europe about a year and a half ago, but the upset price (£1,000 a league, if I am not mistaken) was so out of the question that no bids came forward! Well, if Government were to try the same experiment here, say an upset price of 3,000 shinplasters per league, it would find 50,000 people ready to take them, It is even quite possible that these 20,000 leagues would fetch 100 millions. Employing the net proceeds of these sales, which could easily be effected in two months' time, for burning an equal amount of shinplasters, Government could then, without running too much risk, convert the rotten shinplaster dollar, at the rate of 75 cents, in Greenbacks, declaring the latter legal tender in all public offices and all private obligations, from the 1st of September 1891. The issue ought to be 150,000 millions Greenbacks, as I do not believe that 100,000 millions are sufficient, owing to the enormous increase agriculture has taken and is taking yet in this country.

By this way I believe that Government could safely open the long closed Oficina de Cambios on the 1st of January 1894.

SARMIENTO BUILDING.

The following gentlemen attended the meeting at Sarmiento on Saturday to consider what was best to be done with the Arroyo Luna edifice:—

V. Rev. Father Victor, Rev. Fathers Crispin, Gray, O'Grady, Sheehy and Eward O'Reilly, James O'Farrel, L.L.D. Messrs. M. Dinneen, James Maguire, Francis Maguire, James Brady, John Cunningham, Christopher Brady, David Suffern, Michael Mullen, John Murphy, W. Morgan, Edward Casey, E. Casey, jun., John Casey, Charles H. Mawdesley, John Moran, James O'Connoll, John Gardiner, James Dooner, Edward Enright, Patrick Dowling, P. Dowling, jun., Francis Corolan, Michael Ward, John Ward, Anthony Slavin, James Kenny, John Lynch, John Leonard, Francis Rattigan, Patrick Gerarty, Michael Haugh, Juan Iraiz, Paul O'Neil, James Moran, Michael Moran, James Dogherty, Prof. O'Curry, Martin Gillian.

Proceedings were opened by V. Rev. Father Victor, who stated, as already known, that the Passionists were desirous to hand over the building to the Irish Catholic Association: they had already expended 53,000$, besides a debt of 20,000$ now on the building. It was estimated that a further sum of 10,000 or 12,000$ would suffice to finish it.

Dr. O'Farrell said that as there was not present a Quorum of the Irish Catholic Association nothing could be done. He promised, however, to call a meeting at an early date, and submit the matter to its consideration.

EL MENSAJERO.

This is the name of a new periodical to appear every Friday, devoted to religious subjects and edited by Rev. Florencio V. Sanz. There is a large and brilliant staff of collaborators, viz., Dr. Pedro Goyena, Dr. Lamarca, Dr. Casabal, Don Luis Repetto, Don Carlos Castillo, Don Rafael Fragueiro, Don Marciano Pano; the last-named as correspondent in Spain. Subscription $2 quarterly. Office 125 Talcahuano. The Cura of each parish in the diocese is also authorised to enrol subscribers. Archbishop Anciros has given his special approval, and those of our Roman Catholic readers who understand Spanish will do well to support the *Mensajero*.

BRITISH WORKMEN

Mr. Editor,

I have seen some remarks in a late issue of your paper complimenting the Sola men on their honorable conduct in agreeing to a reduction of wages in order to keep the whole of the men in employ. The fact of the matter is this: the men were asked to work half time, to which they agreed; but when the so-called commission (men who had been discharged and had nothing to do with the Company) interviewed Mr. Barron and found he would not accept the half-time clause, they suggested then quarter time at a fixed premium of 50 per cent. This, of course, Mr. Barron agreed to, as the Company gain a quarter of a day's more work for the same money.

I may say the men are dissatisfied with the arrangement; considering the profitable year the Company have had, they imagine them in a position to pay more than starvation wages.

BELGRANO AMATEUR THEATRICALS.

Belgrano, June 22nd.

Mr. Editor,

I shall be much obliged if you will kindly publish the following cash statement of the performance:—Gross receipts, $948; expenses, $220, leaving a balance of $728, which has been handed to the Treasurer of the British Hospital Comfort Fund.

Yours truly,
James Goodwin.

RAILWAY ITEMS.

Mr. M. Raabe, in behalf of the North West Argentine, has applied to Government for the payment of the guarantee due on the line: $48,565.

The Contaduría Nacional yesterday approved the estimates drawn up by the N.R. Board for the working of the Dean Funes-Chilecito and Chumbicha-Catamarca lines.

The following items from Rio will be found interesting:—

The *Jornal do Comercio* of the 2nd inst. says that the Government has received at least four proposals for the lease of the Central railway. One of these proposals, it says, offers to advance $60,000,000 to extend the road to Pirapora, thus connecting it with 1,500 leagues (6,000 miles) of navigable water way, and to widen the gauge between Cachoeiro and S. Paulo, so as to make the gauge uniform between the latter city and Rio de Janeiro.

The *Jornal* of the 7th is informed that a 30 years concession has been granted to the Banco da Republica and Dr. Caminada for a circular railway in this city and suburbs, starting from the Largo da Carioca and following the range of hills from Santa Thereza to Tijuca, and thence around to the Ilha do Governador and the Largo da Carioca.

EDITOR'S TABLE.

There has been a brisk sale of seats for the Dramatic Performance of next Friday. There are still several boxes on the 3rd tier untaken. This tier in the Onrubia Theatre is not so high as usual, and the boxes are as good as any in the house, commanding a fine view of stage and audience. We may add that the theatre is at corner of Calles Victoria and San Jose, very central, with tram-cars passing in all directions. All the railway companies have courteously put on special trains for the occasion, to the suburbs.

Governor Costa has made a lucky choice in Sr. Guillermo J. Nunes for the responsible post of Chief of Police of the Province. Mr. Nunes is not only favorably known in military circles as one of the ablest officers in the navy, but he enjoys a most enviable reputation in commercial circles with which he has been connected of late years. All who know him appreciate him for his high qualities; as an officer he was held in the highest esteem, as member of a commercial firm he has enjoyed a reputation for straightforwardness and enterprise, ratified by several years working in this market. As Chief of Police of the Province he will confirm his reputation for courtesy and urbanity, and we congratulate the Governor on his selection. We think that there are few men in this country better fitted for the post, a more striking illustration of the "suaviter in modo, fortiter in re."

To-night will be devoted to the drawing of "Cedulas" by young people of a "novio" age. Happy would it be for this afflicted country if it had never known of other "Cedulas" than the harmless ones drawn on the Eve of the Festival of St. John.

We call attention to the Hurlingham advertisement of to-morrow's races. The programme promises a good day's sport. Our ideas for the different races are:—

Premio Travieso—The Tyrant
" Junio—Arabe
" Tita—Tia
" Ensayo—Briton
" Primer Paso—Lillington
" Maiden Hurdle Race—Grayshott.

There will be a celebration of Holy Communion at Saint Peter's Anglican Church, Flores, at 8.30 a.m. to-morrow, St. John Baptist's Day.

The Director of entertainments of the English Literary Society asks us to express his regret that he is unable to publish his programme in to-day's issue, but promises to advertise it in full to-morrow. There are some splendid items in it and we advise the members to apply for their tickets as soon as possible.

The Salvation Army Tea and Meeting is fixed for Thursday evening next; tea at 6 o'clock and meeting at 8.15 p. m. Amongst others the following gentlemen have promised to attend, if possible:—Dr. Mackern, Mr. P. J. Walker (Sailors Home), Juan Pelleschi, Revd. J. W. Fleming B. D., Louis Andres Repetto and others.

A very tragic affair occurred the other night at a wedding in Calle Chacabuco, the father of the bride dropping dead in the drawing room while dancing was going on. A most painful scene followed, and force had to be used to tear the young bride away from her father's corpse which lay on a sofa in the brilliantly lighted ball-room.

The latest compliment paid to English customs by Parisian mashers is imitating John Bull's detestable habit of tucking up the ends of his trousers on a muddy day, instead of having them made to fit him properly. The "bourgeois" mashers who have never been to London think that tucked-up pantaloons are a British institution irrespective of weather, and carry their Anglomania so far as to wear permanently tucked-up trousers, even on the finest days, to the delight of the "gamins" who chaff them unmercifully; but they are equal to the occasion, assume an air of lofty British like indifference, and lurch along with an excellent imitation of that "pas Britannique" which is known all over the habitable globe and nothing but protracted military drill can cure.

The school children had the city of themselves on Sunday, the Festival of their Patron, St. Louis of Gonzaga

Esta Empresa, deseosa de fomentar el desarrollo de algunas industrias nacientes y la prosperidad de las regiones que sus lineas atraviesan, ha dedicado aprovechar las facultades que le confiere la Ley de Ferro-Carriles Nacionales para acordar provisoriamente y hasta nuevo aviso rebajas sobre el trasporte de algunos articulos de produccion y fabricacion locales, como ser maderas, leña, huesos, piedra, carbon de leña, etc.
Para realizar esta idea dejara de cobrar desde el 25 o/o hasta el 50 o/o del aumento en el flete que la corresponda segun el tipo del oro, mientras que este no sea menor de 250 o sea un premio de 150 o/o y siempre en relacion a la cantidad de carga que se desen remitir.
Como es indispensable que toda reduccion sobre los fletes aprobados por el S. Gobierno sea hecha de conformidad con la citada Ley, es necesario que se verifique un convenio precio, por escrito entre la Administracion y los cargadores de estos productos a cuyo efecto deben los interesados dirijirse a aquella, sea en Monte Caseros o en Empredado, segun corresponda el transporte a una u otra seccion, solicitando de la respectiva rebajo.
Estas reducciones de fletes comprenden a todos los cargadores, tanto a los que remitan grandes cantidades como a los que envien pequeñas, mientras no sean menor de un wagon entero, a fin de evitar que la concesion de este beneficio de lugar a monopolios.
La tramitacion para obtener la reduccion de los fletes es sumamente sencilla, bastando al efecto un simple cambio de cartas entre esta Administracion y los interesados en conseguirla.

ON 'CHANGE.
Monday, June 22nd, 1891.
Though the market is now in full Moratoribus for the next three months, the situation did not reveal any visible disturbance. The despicable bill has not caused a single ripple on the placid surface of the market's stagnation: as might be expected, the bill has merely prolonged the doldrums, and we are now beating about with flapping sails in the midst of stoppage of discounts, stoppage of exchange, in fact, stoppage of all business. The squall will come at the end of August, and then the skipper better look sharp.
It is argued that no honest tradesman will avail of the Moratoribus: this is quite true as long as the honest tradesman is not handicapped by others who may avail of the Moratoribus, but business is a big chain, and if one link snaps, all the others may fall to the ground. The Moratoribus is bound to sap the foundations of the market, though we believe that it was framed merely to relieve the debtors of the State Banks. If the market could get an insight into what is going on in the Courts, it would simply be staggered to see what people are in difficulties, supposed capitalists, pseudo-millionaires and others with bankruptcy staring them in the face. It is a terrible situation, but fortunately it affects more a class than the market. The market at large is more or less sound, and the State banks seldom interfered with discounts in the market. The ruin is in our financial system, but outside the immediate sphere of the commercial planet.
The Moratoribus is an expedient of ambiguous advantage to a certain class of capitalist, landowner, estanciero and amateur millionaire or capitalist: it may prolong the luxury of palatial mansions, of extravagant display, of Russian horses, etc., in certain quarters, but it has nothing to do with the "bonafide" commercial market, which, comparatively speaking, making due allowance for the crisis, is sound to the core: not only is this the case here, but the small farmer the sheep-farmer and the estanciero who keep to their occupation, are not to say prosperous, but certainly very solid.
Take all in all, the Moratoribus is merely a sleeping draught, a soothing syrup for the speculator. The palliative may pull that auspicious kind of patient through: if affairs improve, if gold falls, if capital returns, if confidence be revived, if, in fact, the unexpected takes place, the Moratoribus may enable the speculator to outlive the trial: at all events, it will prolong his vicissitudes for ninety days. It will give him some breathing time before breaking up completely, and so far the Moratoribus is sympathetic. But the banker, the merchant, the dealer looks down upon the bill with contempt, and will not avail of it—all honour to the commercial body of Buenos Aires, but let us hope that no snapping of the chain will jeopardise

Stocks and shares were very neglected this morning. Catalinas closed at 9.20, Constructors at 5, Patrtotic Loan at 57½. Two hundred National Bank shares were sold at 30 and 29. Talking of the National Bank, we see that Dr. Pacheco, ex-Minister of Finance and ex-Chairman of the Bank, has written a letter to explain certain statements or charges of the Board of the Bank and the Auditing Committee. It will be remembered that the report of the Board stated that last June the Chairman of the Bank, on his own responsibility, had advanced to a certain person $200,000 m/n, in spite of the fact that said person already owed the Bank $400,000 m/n. This statement has been confirmed by the Auditing Committee. But Dr. Pacheco shews that there is a "suppressio veri" in these charges:—1st. The grant in question was approved by the Board. 2nd. The party to whom the money was advanced returned both capital and interest when the Bank was in great straits and facing a run, a year ago. Fair play is a jewel, and Dr. Pacheco has done well to come forward and tell the whole truth of what at first looked a very bad business; for the public had an idea that the bank had been defrauded out of the money lent in this fashion. It is to be supposed that the Board of the Bank will now rise to explain, for its attitude is rather ridiculous at present.

Business at the second hour was fairly brisk in gold which continued its downward course of the morning, the ounce closing at 46.80, which gives an equivalent of 349 %, whilst sovereigns were also weak, at 17.65. In stocks the only business done was in Cedulas and Catalinas, the former shewing a fresh decline, although the latter held firm. In the Patriotic Loan bonds some operations were also effected at 57.50-to 57, and in the Scrip at 35 to 34. Constructors were quite neglected and only one lot of the erstwhile sovereign stock changed hands at 30.

The following is a summary of the business effected in stocks and shares to-day at the second ring:—

. I consider that no estancia which has any stock worth giving medicines to ought to be without these medicines.
The GASEOUS FLUID is the very best colic medicine I have ever seen given to horses, and the RED DRENCH for any illness after foaling or calving or lambing is, I consider splendid.

DR. J. COLLIS BROWNE'S
CHLORODYNE.
The original and only genuine
Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis Asthma.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.
From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Lear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent, we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Sapasms, Crampas, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation dury many years. In Cholerate Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm a Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.
CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman "Times." July 13, 1864.
Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelmning medical testimony accompanies each bottle.
CAUTION.—Beware of Piracy and Imitations.
